LinkedIn: [linkedin.com/in/theafzalhussain](https://www.linkedin.com/in/theafzalhussain) | GitHub: github.com/theafzalhussain | Portfolio: afzalhussain.tech

PROFESSIONAL SUMMARY

Frontend Developer and MCA candidate with a BCA (First Division) and 5 live, deployed web applications on React.js, TypeScript and the MERN stack. Delivers responsive, API-driven products scoring 90+ Lighthouse performance with page loads under 2 seconds. Shipped 45+ REST API endpoints, 60+ reusable components and a production e-commerce platform with online payments, background jobs and admin workflows. Seeking a Frontend Developer or Web Development role to contribute to production software and grow within an engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, React Router, Responsive & Mobile-First Web Design

Backend & Data: Node.js, Express.js, MongoDB, Mongoose, REST APIs, Redis, BullMQ, Socket.IO

Tools & Integrations: Git, GitHub, Vercel, Render, npm, pnpm, Axios, Fetch API, Razorpay, PWA, Nodemailer, Datadog, Sentry

AI-Assisted Development: Cursor, GitHub Copilot, Claude, ChatGPT, v0, AWS Kiro

Core Strengths: Problem Solving, Self-Learning, Team Collaboration, Written Communication, Attention to Detail, Time Management

PROJECT EXPERIENCE

eShopper — Full-Stack E-Commerce Platform

React.js, Node.js, Express.js, MongoDB, Redis, BullMQ, Razorpay, Socket.IO | Feb 2026 – Jun 2026 | eshopperr.me |

github.com/theafzalhussain/eshopper

- Built 30+ REST API endpoints powering product discovery, cart, coupons, checkout, order tracking, returns, refunds and admin workflows across a React storefront and an Express backend.
- Integrated Razorpay payments with server-side signature verification, Redis caching that cut repeat database reads by ~60%, 4 BullMQ worker queues for async email/refund/report/image jobs, and real-time order updates with Socket.IO; scored 90+ on Lighthouse performance and SEO.

MovieZone — Movie & TV Discovery PWA

JavaScript, Node.js, Express.js, TMDB API, PWA, Web Push | Mar 2026 – May 2026 | moviezone.dev |

github.com/theafzalhussain/Moviezone

- Built an installable movie and TV discovery PWA with resilient TMDB proxying and caching, server-rendered SEO routes, Web Push notifications and Smart TV D-pad navigation, scoring 90+ on Lighthouse PWA and SEO audits.

Portfolio Website — Personal Site with Contact API

Next.js, React.js, TypeScript, Tailwind CSS, MongoDB, Nodemailer | Dec 2025 – Jan 2026 | afzalhussain.tech |

github.com/theafzalhussain/Portfolio

- Developed a responsive 6-page portfolio from 20+ reusable TypeScript components, scoring 95+ on Lighthouse accessibility with a mobile-first layout.
- Shipped a server-side contact API that stores messages in MongoDB and sends automated email notifications via Nodemailer.

The Chronicle — Bilingual News Application

Next.js, React.js, TypeScript, Tailwind CSS, SWR, GNews API, RSS | Sep 2025 – Nov 2025 | mynews-web.vercel.app |

github.com/theafzalhussain/News-Web

- Built English and Hindi news discovery across 8 categories with search and infinite scrolling, aggregating GNews and RSS feeds with normalization, deduplication, caching and fallback handling that cut outbound API calls by ~50%.

World Explorer — Full-Stack Countries Application

React.js, TypeScript, Express.js, Tailwind CSS, TanStack Query | Jun 2025 – Aug 2025 | myrest-country.vercel.app |

github.com/theafzalhussain/New-RestCountry

- Created 300 ms debounced search, region filters, sorting and border navigation across 250 countries, cutting redundant network requests by ~70% with TanStack Query caching over a typed Express API with request validation.

EDUCATION

Master of Computer Applications (MCA) — IGNOU, New Delhi | 2024 – Present

Bachelor of Computer Applications (BCA) — Maharshi Dayanand University, Rohtak | First Division | 2019 – Jul 2022

CERTIFICATIONS & TRAINING

MERN Stack Development (DUCAT, Delhi, 2023) • Web Development, 6-Month Program (World Class Skill Centre, Delhi, 2023) • Cybersecurity and AI Basics (NIIT Foundation, 2023)

ADDITIONAL

Languages: English, Hindi | **Availability:** Open to full-time roles and internships, onsite in Delhi NCR or remote
